

2025 Water, Wastewater & Stormwater Rates

Council approved the 2025 rates based on the amount of funding needed to operate our water, wastewater and stormwater systems. **For 2025, water rates will increase by 2%, and wastewater rates will increase by 4%. Stormwater rates will increase by 3%. For an average household with all three services, this amounts to an increase of \$3.38 per month before any variable rate charges.** Remember that legally all costs associated with operating water systems must come from users.

How much will I pay per month in 2025?
