## **Purpose**

The purpose of this policy is to establish consistent principles, standards and guidelines for the maintenance, management and accounting of reserves and reserve funds.

## **Objectives**

The primary objectives for reserves and reserve funds are:

- 1) To adhere to statutory requirements;
- 2) To promote of financial stability and flexibility;
- 3) To provide for major capital expenditures;
- 4) To smooth expenditures which would otherwise cause fluctuations in the operating budget;  
and
- 5) To take advantage of financial opportunities that may arise.

This policy establishes the objectives for reserves and reserve funds, standard of care, as well as it delineates the responsibilities for their management and administration.

Under section 417(1) of the Municipal Act, municipalities have the authority to provide for reserve funds in annual budgets for any purpose for which it has the authority to spend money.

## **Scope**

The Reserves and Reserve Funds Policy applies to all reserves and reserve funds established by the Municipality of Middlesex Centre.

## **Definitions**

- 1) “**Deferred Revenue**” means revenue that is considered a liability on the Municipality’s financial statements until, over time, it becomes relevant to current operations, such as prepayment received for something that has not yet been provided. Deferred revenue is set aside in an obligatory reserve fund for a specific purpose by legislation, regulation, or agreement. Development charges and federal gasoline tax are examples of deferred revenue.
- 2) “**Discretionary Reserve Fund**” means reserve funds created at the discretion of Council whenever revenues are earmarked to finance future expenditures of a purpose designated by Council. Revenues set aside for acquisition of fixed assets is an example of discretionary reserve funds.
- 3) “**Obligatory Reserve Fund**” means reserve funds that are required by legislation or agreement to be segregated from the Municipality’s general revenues for a special purpose

or for works to be undertaken on behalf of the contributors. These funds are classified in the financial statements as “Deferred Revenue”. Development Charges and Cash-Lieu-of Parkland are examples of obligatory reserve funds.

- 4) **“Reserve”** means an allocation from net revenue at the discretion of council, after the provision for all known expenditures, as part of an overall strategy for funding programs and projects that are set out in the annual budgets or budget forecasts, and is authorized under the provisions set out in the Municipal Act. It has no reference to any specific assets and does not require the physical segregation of money or assets. Reserves are part of a revenue fund and therefore, do not earn interest on their own. Any earnings derived from the investment of money from a reserve are reported as revenue in the operating fund. Revenues set aside for working funds is an example of reserves.
- 5) **“Reserve Fund”** means a fund with assets which are segregated and restricted to meet the purpose of the reserve fund. It is based on a statutory requirement or defined liability payable in the future and is usually prescriptive as to the basis for collection and used of monies in the fund. **All interest earnings derived from such funds must form part of the reserve fund.** There are two types of reserve funds: obligatory reserve funds and discretionary reserve funds.

## **Roles & Responsibilities**

### **1) Municipal Council**

- a) In accordance with the Municipal Act 2001, Section 224, develop and evaluate policies; ensure that administrative policies, practices and procedures, and controllership policies, practices and procedures are in place; and maintain the financial integrity of the municipality; and
- b) Approve transactions to and from reserves and reserve funds through the budget process or by specific resolution and/or by-laws.

### **2) Chief Administrative Officer**

- a) Support the Treasurer in ensuring the principles and mandatory requirements contained in this policy are applied consistently across all Municipal departments.

### **3) Treasurer**

- a) Develop and update this policy as necessary and present changes to Council;
- b) Retain the overall authority for establishing and managing reserves and reserve funds, and may delegate this authority in writing when applicable;
- c) Ensure that the principles and requirements contained in this policy are applied consistently across all departments;
- d) Perform the transfers to and from reserves and reserve funds as authorized by Council;

- e) Recommend strategies for the adequacy of reserve levels;
- f) Report to Council the reserve balances and forecast as part of the annual budget approval process;
- g) Develop long-range fiscal planning strategy to effectively meet the Municipality's capital financing and capital asset replacement requirements;
- h) Monitor and reconcile all receipts to and disbursements from reserve and reserve fund accounts to ensure compliance with provincial regulations, PSAB and this policy;
- i) Determine the need for reserves and reserve funds for operating and capital operation;
- j) Ensure a review and report to Council of the adequacy and continuing need for reserves and reserve funds is undertaken when deemed necessary;
- k) Ensure adherence to the Development Charges Act and applicable Provincial funding agreements;
- l) Arrange for the preparation and presentations of required reports and/or by-laws for the creation or termination of any new or obsolete reserve or reserve funds; and
- m) Develop appropriate strategies, procedures and processes for the investment of reserves and reserve funds.

#### **4) Department Heads**

- a) Provide the Treasurer with the most current capital asset information to be used in the assessment of the adequacy of capital lifecycle reserves;
- b) Inform the Treasurer when reserve or reserve funds transfers are required; and
- c) Consult with the Treasurer when reserve funds are required for unbudgeted transactions.

### **Procedure**

#### **Establishment of Reserves and Reserve Funds**

Reserves will be maintained in the following categories:

- 1) Working Funds
- 2) Operating
- 3) Capital

Reserves can be established through the following processes:

- 1) Inclusion in the annual budget which is approved by Council; or
- 2) Through resolution of Council.

The budget document or resolution will clearly identify the name of the reserve being created and the purpose for the reserve. A reserve may be amended through resolution.

Reserve Funds will be maintained in the following categories:

- 1) Discretionary
  - a) Capital
  - b) Operating
- 2) Obligatory
  - a) Statutory
  - b) Trusts
  - c) Contractual

Council, on the recommendation of the Treasurer, shall establish obligatory reserve funds and may establish discretionary reserve funds.

A reserve fund can be established only if at least one of the following applies:

- 1) A mandatory obligation exists, either pursuant to legislation or contract;
- 2) The funds are intended for purchasing or maintaining capital assets;
- 3) The funds are donated for a specific purpose; and/or
- 4) The funds are intended to fund a future liability.

A report which recommends the establishment of a reserve fund must include the following:

- 1) Statement of purpose;
- 2) Rationale for the appropriate level to be maintained or targeted in the reserve;
- 3) Initial contribution; and
- 4) Contribution policy.

An **Obligatory Reserve Fund** is established through either terms of an agreement which is entered into by the Municipality or through legislation from a higher level of government. Obligatory Reserve Funds will be added to the summary of Reserve Funds.

A **Discretionary Reserve Fund** will be established through by-law. The by-law will clearly identify the name of the reserve fund, the funding method and the purpose for the reserve fund. A reserve fund can only be used for the identified purpose, unless the Council amends or repeals the establishing by-law.

## **Approval**

Approval of funding to and from the reserves and reserve funds will be in accordance with the Municipality's budgets and reports to Council as referred to above.

## **Investment of Reserves and Reserve Funds**

Reserves and reserve funds may be invested for a term that will not exceed its expected date of need. The related investment income will be credited monthly to the specific reserve or reserve fund according to its proportionate share of the investment portfolio and based on the weighted average return for realized income during the month. Investments shall be further governed by the Municipality's Investment Policy.

## **Contributions to/withdrawals from Reserves and Reserve Funds**

All contributions to and/or withdrawals from reserves and reserve funds shall be approved by Council, normally as part of the annual budget approval process or specifically by resolution with the following exceptions:

- 1) Direct contribution to reserve and reserve fund such as development charge contributions or settlement in account of prior year events; and
- 2) Transfers that are the direct result of the year end surplus/deficit.

All contributions to and/or withdrawals from reserve and reserve funds will be clearly identified and segregated within the Municipality's accounting system and accounted for by either an entry or to or from an operating cost center or a capital project.

Funding strategies developed for reserves and reserve funds will take into account fairness to current and future tax/rate payers.

## **Timing of Contributions to and Transfers from Reserve and Reserve Funds**

Contributions to reserves and reserve funds as approved in budgets will be transferred to the reserves on an annual basis in September.

Transfers to capital projects as approved in budgets will be done in September, December and during the year-end process to ensure actual reserve allocation equals actual expenses incurred.

Transfers from a reserve fund will not occur if the transfer will put the reserve in a negative balance. Final reserve and reserve fund transfers will be based on actual expenditure costs rather than budgeted amounts.

Transfers to operating costs as approved in the budgets will be done during the year-end process to ensure actual reserve allocation equals actual expenses incurred.

### **Closing Reserves and Reserve Funds**

If the purpose or purposes for which the reserve or reserve fund was created have been accomplished and the reserve or reserve fund is determined to be no longer necessary, the Treasurer, in consultation with the Department Head and Chief Administrative Officer, shall report to Council with the recommendation on:

- 1) The closure of the reserve or reserve funds;
- 2) The disposition of any remaining funds;
- 3) The necessary amendment to the reserve by-law; and
- 4) A resolution of Council to close a reserve.

The By-law establishing the reserve fund will be required to be repealed in order to close a reserve fund.

### **Allocation of Operating Surplus/Deficit**

- 1) The Treasurer shall transfer year-end operating surpluses to the working fund reserve, tax rate stabilization reserve fund or operating projects carryforward reserve unless a recommendation is made to Council for an alternative reserve fund.
- 2) The Treasurer shall recommend to Council an appropriate reserve allocation of any year-end operating deficit.
- 3) Year-end water, wastewater, stormwater and building department budget surplus will be allocated to appropriate water, wastewater, stormwater or building department reserve fund. Deficits will be funded from the water, wastewater, stormwater or building department reserve fund; if insufficient, any shortfall will be funded from the appropriate reserve.

### **Interest Allocation**

- 1) Reserve funds will be invested in accordance with the Municipality's approved investment policy. Earnings shall be credited to each separate reserve bank account that invested the funds.
- 2) Where multiple reserve funds are included in one bank account, interest shall be allocated to reserve funds on a monthly basis based on the actual balance of the reserve fund.

- 3) Reserves shall not be invested and are not allocated interest.

## **Targets**

Methodologies for calculating targets are specific to each reserve or reserve fund, however consideration will be given to the following:

- 1) Purpose of fund (i.e., operating or capital);
- 2) Certainty of end needs (i.e., for contingent liability or long-term asset replacement);
- 3) Economic factors (inflation, interest rates, cyclical pressures);
- 4) Industry/Government/Accounting standards; and
- 5) Multi-year forecast of contribution and projected usage.

The target for each reserve and reserve fund is identified in Schedules B and C of this policy.

The Treasurer will review the targets annually and propose changes to the target level as required.

## **Temporary Borrowing**

Temporary borrowing from reserves and reserve funds is permitted to cover a reserve short-term deficit, to temporarily finance capital fund expenditures or operating cash flow deficiencies, or to avoid external temporary borrowing cost provided that the following conditions must be met:

- 1) Borrowing must not adversely affect the intended purpose of the reserve;
- 2) A plan to repay the reserve within a reasonable timeframe is prepared;
- 3) Interest, equivalent to the Municipality's interest of reserve fund bank accounts, is applied to outstanding amounts borrowed; and
- 4) Where applicable, applicable legislative requirements are met. For example, the Development Charges Act permits inter-fund borrowing only between development charge reserve funds and prescribes a minimum interest rate (i.e., Bank of Canada prime rate).

## **Annual Reporting**

- 1) An annual statement will be included in the budget package created and provided to Council each year.
- 2) As required under Development Charges legislation, the Treasurer will provide Council with a financial statement related to the Development Charge By-law and include information regarding development charge reserve funds. This statement will then be forwarded to the Minister of Municipal Affairs and Housing within 60 days after the Council receipt.

- 3) Year-end audit and financial statements: balances of reserves and reserve funds, both obligatory and discretionary reserves funds will be presented to Council with the appropriate note disclosure and comparative figures as required to meet PSAB reporting standards.
- 4) When required, reporting to Council or other agencies may exist for reserved residual balances related to grants or other contributed funds, for example, federal and provincial grants.
